- Skilled over 1000+ live cases

Design from Anatomy

- Clinical understanding
- Latest Organic Design Tools

Digital Planning Platform

- Instant Web Visualization
- Online Design review and approval
- Shareable Link
- Payment gateway

Customized Cranial Implants

Customized Cranial implant is designed based on patient's CT scan data by mirroring the healthy cranium side onto the defect.

Benefits and Features:

- Guaranteed perfect fit
- Medical grade titanium
- Natural shape and curvature
- No bulging out of the screw head on the implant surface
